

# FAIRYTALE CANVAS

Read a fairytale together, or make up a story of your own. The adult "paints" the story on the child's back with their hands. When the story ends, trade places.

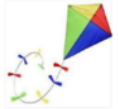

Brush, press, caress, poke, nip, varying the pressure. You can use your fingertips, knuckles, palms, etc.

The story can be about:

- ✓ A forest with various animals looking for nesting places.
- ✓ Spring, with alternating rain and shine, making the trees and flowers grow.
- ✓ A weather map charting the weather around Finland or the world. Some places get rain and fog, others sunshine and strong winds or storms and rolling thunder.

Settling down,  
body perception
