

POPCORN MACHINE

The Popcorn Machine can be performed while changing the sheets.

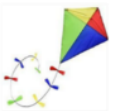

✓ Gather stuffed toys, soft balls, or tailballs* on top of the sheet.

✓ Each take a corner of the sheet in both hands.

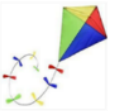

✓ Bounce the toys and balls into the air using the sheet corners. Try to keep all the toys on top of the sheet.

✓ Can you bounce only the stuffed toys off the sheet? How about the balls?

* A tailball is made by crumpling pages of newspaper or other pieces of paper into a ball and putting it inside a small plastic bag. Tie the bag shut next to the ball, so that the rest of the bag forms a "tail". Now you have a tailball!
